Shreyash Katiyar

Full Stack .NET Developer

shreyashkatiyar404@gmail.com • +91 6393220245 • Lucknow, India • GitHub • LinkedIn

SUMMARY

.NET Developer with hands-on experience in building web applications and RESTful APIs using C#, ASP.NET Core, ASP.NET Core MVC, Entity Framework Core, and SQL Server. Experienced in developing CRUD-based applications, JWT authentication, role-based authorization, dependency injection, Identity, and secure OTP-based authentication workflows. Comfortable working with LINQ, SQL queries, stored procedures, API testing, and database-driven applications. Familiar with Angular, Bootstrap, Git/GitHub, Docker, Swagger, and Visual Studio. Currently working as a .NET Developer Intern, contributing to real-world application development while focusing on clean, maintainable, and secure code.

EXPERIENCE

A **.Net Developer Intern** Jun 2026 — Present

Augurs Technologies Pvt. Ltd. Lucknow

- Building real-world enterprise web apps with ASP.NET Core and Angular
- Implementing JWT authentication and role-based authorization systems
- Developing and optimizing SQL Server databases
- Collaborating with the team using Git and agile methodologies

EDUCATION

Bachelor of Technology, Computer Science & Engineering 2026

Maharana Institute Of Professional Studies Kanpur, India

Intermediate, PCM 2022

Nehru Vidhyalaya Inter College Kanpur

HighSchool 2020

Nehru Vidhyalaya Inter College Kanpur

PROJECTS

OTP-Authentication-System Sep 2026

github.com/Shreyashmoon123/ASP.NET-Core-OTP-Authentication-System

Developed an integrated MVC and Web API based OTP authentication system using ASP.NET Core Identity, Entity Framework Core and SQL Server. Implemented secure 6-digit OTP generation, PBKDF2 hashing with salt, 5-minute expiration, purpose-based verification, cooldown, rate limiting and previous OTP invalidation. Integrated SMTP email service for OTP delivery and built a responsive Bootstrap-based authentication interface with standardized API responses and MVC-to-API communication.

Product-Management-Web-API Aug 2026

github.com/Shreyashmoon123/EntityFrameworkCoreProductManagement

A complete Product Management REST API built using ASP.NET Core Web API, Entity Framework Core, and SQL Server.

This project demonstrates CRUD operations, database integration, DTOs, validation, LINQ queries, search, filtering, sorting, pagination, relationships, and asynchronous EF Core operations.

ATM-Console-Application Jun 2026

github.com/Shreyashmoon123/ATM-Console-Application

A banking simulation console application built using C# and .NET, following Object-Oriented Programming principles.

Implemented secure card number and PIN login with balance checking, deposit, withdrawal, fund transfer, and transaction history features. Developed to strengthen practical understanding of C#, OOP concepts, and real-world application development.

SKILLS

Languages: C# · TypeScript · JavaScript

Frontend: Angular 17+ (Signals · Standalone) · HTML5 · CSS3 · BootStrap

Backend: ASP.NET Core · ASP.NET MVC · Entity Framework Core · ASP.NET Core Web APIs · Clean Architecture

Security: JWT Authentication · Role-Based Authorization (RBAC) · Secure Password Hashing

DataBase: Microsoft SQL Server · Stored Procedure · Indexing

Tools: Git · GitHub · Visual Studio · VS Code · Postman · SSMS · Docker

AI Tools: Claude · ChatGPT · NVIDIA Nemotron · Cursor · GitHub Copilot

LANGUAGES

English Professional

Hindi Native
